

CLIMATE ADAPTATION TOOLS & THE ADAPT-TOOLS PLATFORM

Understanding what exists and how it fits Mediterranean realities

1. THE CHALLENGE

- ▶ A growing number of climate adaptation tools like platforms, dashboards, decision-support systems is available.
- ▶ Yet many tools do not match real decision needs, capacities or contexts in the region.

2. THE CCA “TOOLSCAPE” INVENTORY

- ▶ We compiled an inventory of digitally accessible climate change adaptation (CCA) tools relevant to the Mediterranean.

3. ANALYSIS

The FutureMed WG2 network assessed each tool along multiple dimensions

- ▶ Who are tools for?
- ▶ What do tools do?
- ▶ Where and how do they work?

4. THE CCA Adapt-Tools PLATFORM

- ▶ We developed a living, collaborative inventory compiling climate adaptation tools, accessible via adapt-tools.org.

5. WHY YOUR INPUT MATTERS

Our assessment indicates that the priority is not more tools, but better-aligned ones. We need to shift from data-centric to user-centered design, involving users in developing, testing, and governing tools.

In this workshop, we invite you to help us:

- ▶ Assess whether the tools in the inventory match your real decision needs.
- ▶ Where do current tools help you most – and where do they clearly fall short.
- ▶ Which user groups or sectors that you work with are not well served.
- ▶ What would a “good fit” tool (or tool combination) look like for your context?
- ▶ How can the Adapt-Tools platform better support your day-to-day practice?

COST (European Cooperation in Science and Technology) is a funding organization for research and innovation networks. Our Actions help connect research initiatives across Europe and beyond and enable researchers and innovators to grow their ideas in any science and technology field by sharing them with their peers. COST Actions are bottom-up networks with a duration of four years that boost research, innovation and careers.

FutureMed WG2-WG3 Stakeholders Workshop on Adaptation Tools

January 19th, 2026, virtual (zoom)

Session	Time CET	Duration minutes	Details
1. Welcome and Introduction	10:00	5	<ul style="list-style-type: none">▶ Brief introduction to the meeting, agenda, and housekeeping,▶ FUTUREMED context and objectives.
2. Climate Adaptation Tools	10:05	10	Key findings from the Adapt-Tools paper.
3. Feedback	10:15	10	Brief Interactive Feedback Q&A session.
4. Adapt-Tools inventory & platform demo	10:25	10	<ul style="list-style-type: none">▶ Guided tour of the platform and filters.▶ Q&A - clarifications on functionalities and how participants could use it in their work.
5. Discussion	10:35	40	<p>Moderated group discussion on the following themes:</p> <ul style="list-style-type: none">▶ Where do current tools help you most and where do they clearly fall short?▶ What would a “good fit” tool (or tool combination) look like for your context?▶ How can the Adapt-Tools platform better support your day-to-day practice?
5. Wrap-up & next steps	11:15	5	<ul style="list-style-type: none">▶ Key takeaways and next steps on how participants can continue to engage.▶ Introduction to future initiatives.
