

FUTUREMED WEBINAR SERIES

As part of the activities of the COST FutureMed action, a series of online webinars has been organised to disseminate scientific knowledge on different aspects relating to the risks facing the Mediterranean basin and the impact that climate change is having on them.

Expert researchers will address various aspects covering topics such as water management, energy transition, hydrometeorological extremes, adaptation strategies, risk and crises communication.

Date	Speaker	Title/topic
08/09/2026	Damian Maye; Bjarke Kovshøj	Climate Action Catalyst: Addressing Risk, Vulnerability and Resilience through Innovative Tools and Community Engagement
28/09/2026	Anna Pirani	Risk assessment and adaptation strategies in the Mediterranean
26/10/2026	Elena Ridolfi	Water-related hazards and infrastructure failures. Learning from past events to strengthen future resilience
23/11/2026	Ayşegül Kibaroglu	Rethinking Water Governance in the Euphrates–Tigris Basin under Climate Change
21/12/2026	Maria Rusca	Hydroclimatic extremes as socio-natural disasters, water justice, inequality, and climate adaptation at the margins
25/01/2027	Aurelio Tobias	Health impacts of climate change, including multi country epidemiological studies
22/02/2027	Emanuele Fantini	Communicating water crises: media, narratives, and the politics of climate adaptation
29/03/2027	Giulio Castelli	Water harvesting and landscape-based adaptation for drought resilience in water-scarce regions
26/04/2027	Philippe Drobinski	Energy transition, climate services, and Mediterranean initiatives
24/05/2027	Ali Rhouma	WEFE Nexus approach to facilitate adaptation and mitigation to climate change: Lessons learned from international cooperation in the Mediterranean Region
21/06/2027	Erika Coppola	High resolution and convection permitting models for Mediterranean extremes and impacts

The webinars are primarily aimed at the FutureMed community but will be open to anyone interested, including researchers, stakeholders and the general public. Each webinar will be publicised well in advance, along with details of how to access it and register, if necessary.

Depending on the speakers' availability, the date of the webinars may be changed. Any changes will be announced as far in advance as possible.
